Dear Dr. Lederberg,

I would like to receive your E. coli K-12 strain W5449 to conduct some experiments on transfection. In fact I got it once from your laboratory but unfortunately, my stocks got contaminated before I could stock it. From the experiments I did with the previously sent strain on transfection with TI DNA, I found it was resistant to TI although the listed genotype did not say whether it was tonA. I shall be very grateful for an early response.

Thanking you in advance.

Sincerely yours,

*Gurnam S. Gill*

↓ I have moved to NYC but sent my major stocks to Dr. Bachmann at Yale. So I am forwarding this request to her.

*Yours, Joshua Lederberg*
